To make money on Roblox is really hard for most gamers, because they need an account in order to sign up for an offer or do a daily ad. Also most offers only require 10 robux , which does not look like that much at all. The 100Robux app has made it easier to make money on Roblox. They may not give you 100 robux at once, but when you have 500 robux in game, another user may ask for 120 robux for an account or a shirt. That would be 60 robux profit. This lets me and other players make money off their skills, and in return they earn virtual currency which they can use to buy premium features or clothing for their character in the game that they are playing.

As a Roblox developer, you have the advantage of being able to learn new things from other people's games. You do not need to start from the scratch because there are thousands of ongoing games that you can play and then copy. There are many ways to make money on Roblox since it is a free app. You can make money by selling your skills as a developer, becoming an affiliate, making money through advertisements or charging for certain items in your game. You can also make Robux by doing roblox sponsored ads.

On August 31, 2017, there was a large lawsuit that ROBLOX was involved in. The user "Bella Thorne" had an unverified account that was deleted by ROBLOX due to copyright claims, although these claims were proven false. Then, the account was deleted and the user made a video about how her account got taken down, where she shows screen caps of some users who hate her on the website, as well as saying several bad words such as foul language and racial slurs.

During the time when Roblox was first being developed (2004–2007), there were a small number of games created that were designed to troll or harass other user accounts on the game platform. Trolls could take advantage of the limited moderation tools and exploit loopholes in the "Terms of Service" and "Community Guidelines".
